Mr. K. H. Redmond  
Boston

Dear Mr. Redmond:

The Government has given permission to the CGTG for use of the gymnasium in the Olympic field for the 2<sup>o</sup> Congreso Sindical to be held here 29-31 January.

Guissepe Erudi (Enudi) (CTI), Luis Saillant (FSM), Vicente Lombardo Toledano (CTAL) and José Morera of Cuba and other well-known communists have been invited and are expected to attend. Large delegations are also expected from Chile, Ecuador and Colombia.

It is said that the main objective of the congress will be to attempt to extend the radius of action of the Communist Party in Central America and the Caribbean. Victor Manuel Gutiérrez is said to have made an elaborate program with this end in view. The agenda of the meeting was included in clipping 102, item 38 of newsletter of 8 January.

Originally the CGTG was running raffles and making collections from sindicatos to cover expenses of this congress. It is said that the Government, through the Minister of Education, has now given considerable economic aid to the CGTG.

Very truly yours,

(Sgd.) A. L. Bump
